Hatch End Trade Association

"Be part of something Great!"

Remember:- Friday 3rd DECEMBER at 4.30PM – Hatch End Broadway

Last year, The Hatch End Trade Association installed the first ever Christmas Tree in the Broadway and this year we've worked especially hard to really bring some extra festive cheer to Hatch End.

CHRISTMAS TREE!!

We'll be installing a huge 30' foot tree with over 3000 LED's!! Harrow Councils engineering department have once again pulled out all the stops to help and have installed a permanent sleeve for the tree on the pedestrian area on the south side of the central Broadway.

THOUSANDS OF LIGHTS!!

Along with local company Saimol Trading Company, we've arranged for Brilliant LED Festoons to decorate the lampposts and there's no doubt this display will really Light Up The Town!!

OOM-PAH PAH!!

A Brass Trio will play during the ceremony to get us all in the Festive Mood and local Carol Singers will help give the whole event that wonderfully traditional atmosphere

SOLAR ENERGY!!

This year we'll be delivering another First – **Solar Energy!!** With the help of local company Renewable Energies Ltd*, Solar Energy will be contributing power to various lighting displays. We're excited and proud to be the first ward in the borough to start using renewable energy to help power our Christmas displays and we've no doubt that this will set an exciting precedent for the future.

FREE RERESHMENTS!!

It's the season of goodwill and several members of the H.E.T.A. will be opening their doors and supplying Free Canapés and Refreshments during the event!!

Participating Outlets Are:

A CAFE – INDUS – RECIPE – HATCHET'S – CASA MIA – BLACK PEPPER – CAFÉ RIALTO

This is a great opportunity to sample the superb fare from these local eateries – *why not book a table and make a night of it!!* (see website for contact details www.hatchendtrade.com)

EVERYONE'S INVITED - So come along, support your local traders & enjoy yourself, get the Festive Season off to a great start and witness the boroughs first ever Christmas lighting display utilising Solar Energy!!

*(*for more information on how to add solar power to your home see the back page)*

Remember:- Friday 3rd DECEMBER at 4.30PM – Hatch End Broadway

Our Thanks To Those who've Helped Make It Happen

Our special thanks to **The Hatch End Community Association** for their substantial contribution towards the cost of this year's tree and lights. The Community Association is a Charity that was formed many years ago to assist with the purchase of the original St Anselms Church Hall, Hillview Road. Having failed in this, the funds of the charity have been recently released by the Charity Commission "For the benefit of the people of Hatch End" This is only one of many local donations they have made.

Our Grateful thanks to **Hatch End Ward Councillor Jean Lammiman**, who has supported the H.E.T.A. since its inception in July 2009 and has joined in virtually all of our fund raising and promotional events. This year Councillor Lammiman has rallied the support of the relevant departments within Harrow Council and contributed toward the permanent siting of the tree and the installation of the lamppost festoons.

The gratefully received support and significant contribution from the **Hatch End Association** has helped allow Hatch End to be among the first areas in the country to utilise Solar Energy to help power their Christmas lighting displays. The H.E.A. works on behalf of the residents of Hatch End and is involved in many projects to help benefit the community, so why not take this opportunity to subscribe for membership and get their regular bulletin. You can find out more about the H.E.A. here www.hatchend.org

Our sincere thanks to all members of the H.E.T.A. whose contributions have helped make possible the association and our special thanks to those who've further contributed to sponsoring this event.

Sea Pebbles, A Café, Hatch End Tandoori, The Pulver Carr Partnership, UB8 Interiors, Essential Phones and DUA & Co.

The H.E.T.A. will be making a contribution from proceeds to a chosen charity or good cause on behalf of our trade members, supporters and sponsors and details of this will be announced on our website soon after the event.

The **Hatch End Trade Association** consists of and is open to all businesses that operate within Hatch End. Our objective is to promote and encourage business growth and stability for all our businesses here in Hatch End and to look at ways of improving and boosting the shopping experience for you, our customers – Information about all our members and their businesses can be found on our website so for more details and to see forthcoming events for 2011 check out www.hatchendtrade.com. If you run a business in Hatch End then why not join us? – Come on in, you're welcome!

Remember:- Friday 3rd DECEMBER at 4.30PM – Hatch End Broadway

**You can Earn £800
per year with solar
PV Panels**

Making money from your solar investment

A home PV panel installation uses solar photovoltaic (PV) panels to harness the natural power of daylight, converting it into electricity that you can use in your home. We are currently in a window of opportunity! - Feed-in tariffs (FiT) are enforced by the government. The new feed in tariff has been available since April 2010 and is open for 3 years. You generate an income as well as your own renewable energy with solar PV panels. There's never been a better time to invest in renewable energy as with the Government's Feed-in Tariff (FiT) scheme, you'll be paid for all the electricity you generate.

With the FiT scheme, you'll be paid up to 41.3p for every unit of electricity you generate and an extra 3p for every unit you export to the electricity network!

The payments are tax-free and will last for upto 25 years.

A Typical example

<i>Cost of our Home Solar PV Panel</i>	£ 9,500	This is approximately £2,000 less for installation than comparable systems supplied by Homebase and other competitors putting an <u>extra £2,000 profit in your pocket!</u>
<i>Total Savings on Electricity Bill</i>	£ 2,426	
<i>FiT generation payments</i>	£ 19,866	
<i>FiT export payments</i>	£ 721	
<i>Total Profit</i>	£ 14,013	

As a special offer for this month only we'll pay your V.A.T!
